

Electrical Impedance Test Nylon Cell

Catalog Info:

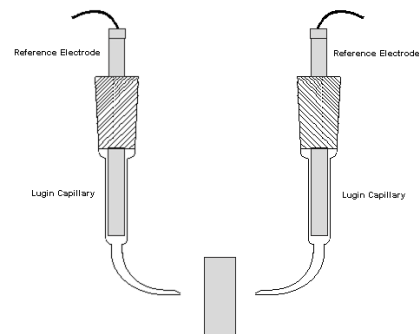

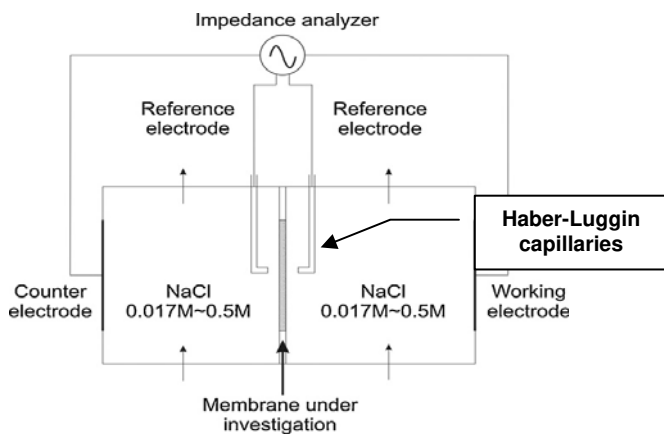

EIT-NC-1

Description:

Cell for Membrane Impedance Test

Technical Specification:

- Usable size of the membrane: 2x2 cm
- Half-cells total dimension: 7x7x3 cm
- Chamber 2x2x2,4 cm
- Material: Nylon
- Electrode Counter Ag/AgCl
- Electrode Working Ag/AgCl
- Reference electrodes Ag/AgCl encapsulated in glass
- Sealing with steel screws
- Viton seals
- Nozzle IN/OUT, dimension 6 mm

Accessories and Notes:

The following product could be designed according to the client requirements
