

## Circular Stainless Steel Cell for Flat Membrane Test

### Catalog Info:

C-SSC-L-1

### Description:

This cell is suitable for testing membrane in Ultrafiltration (UF), Microfiltration (MF), Nanofiltration (NF) and Reverse Osmosis (RO).

### Technical Specification:

#### **Flat Cell for Polymeric Membrane:**

- Material: steel AISI 316L
- N. 2 LIQUID-IN input for tubing ¼"
- N. 2 LIQUID-OUT input for tubing ¼"

#### **Membrane size:**

- Diameter 75mm

#### **Operative Pressure:**

Up to 65bar

Figure 1 - Lower Part

Figure 2 - Upper Part

### **Comes complete with:**

- Porous Stainless Steel Sinter 60µm
- Viton ORing
- Screw Set

### **Accessories and Notes:**

The following product could be designed according to the client requirements

The following product could be designed to work also with GAS (C-SSC-S-1).
