Analysis
(MBR)*

Catalog Info:

LM-MBR-OM-1

Description:

Cell to use for membranes subjected to liquid flow for Optical Microscope.

Technical Specification:

- Half-cell in nylon with single groove 1mm deep
- Membrane support nylon made, dimension 2,5x5cm
- Nozzles in nylon for In/Out liquid to use with rubber tubing of 3mm internal diameter
- Half-cell in nylon with single groove 1mm deep
- Membrane support nylon made, dimension 2,5x5cm, glass window 2x2cm for Optical Microscope
- Nozzles in nylon for In/Out liquid to use with rubber tubing of 3mm internal diameter

Comes complete with:

Accessories and Notes:

The following product could be designed according to the client requirements
